MORE PRIYO

Data Science + AI Developer

B.Tech, CSE (Data Science), 2nd year · CVR College of Engineering

morepriyo@gmail.com · LinkedIn · GitHub

PROFILE

Second-year Data Science student building practical web projects around civic issue reporting and student-to-industry pathways. Interested in software, databases, and AI-supported problem solving.

PROJECTS

JanSetu AI — Full-stack project

Built a website that connects people with government by helping citizens raise public issues. Developed the project end to end.

Live website · GitHub repository

SkillBridge — In progress

A platform connecting students with industry, with planned assessments and AI-supported skill-gap analysis, placement-team access, and employer job listings. Contributed to database management.

Live website · GitHub profile

Back2U — AI lost-and-found recovery platform

Ranks possible matches using Sentence Transformers and OpenCLIP embeddings, distance, and recency, with a deterministic fallback. Protects private ownership clues and applies authorization checks to disputes, handovers, and reward credits. Includes digital Lost Article Reports with masked government IDs.

Live website · GitHub repository

TECHNICAL SKILLS

Programming: C, Java, Python, TypeScript
Web: Next.js, Node.js, Tailwind CSS
Databases: DBMS, SQL, PL/SQL, PostgreSQL, MongoDB

EVENTS & PARTICIPATION

TechHorizon — Participant; hosted by Guru Nanak University
National Data Science Olympiad — Participant; Pinnacle Excellence Conclave
CodeBorderland — Participant; hosted at CVR College of Engineering

CERTIFICATIONS

Data Visualization — Kaggle (view certificate)
SQL Basics — HackerRank (view credential)
